

Summer Greetings from Your School Library!

The librarians of Alcott, Thoreau and Willard Schools have created this list as a resource to guide children and their families in the selection of summer reading materials. Special attention has been given to choosing titles that are fun, age appropriate, and reflect curriculum areas in the coming year. These titles will broaden your child's knowledge base and help build a foundation of quality literature. Care has also been taken to include titles from the state English Language Arts frameworks.

Parents, enjoy sharing these titles with your children. Encourage reading for pleasure this summer, and make books part of your summer routine.

Enjoy!
